

Dear Mr. Uday Kotak,

Sub: **Faceless Assessment/CAROTAR Rules 2020**

Greeting from FFFAI

Many procedural and process changes have been introduced by CBIC in the recent times, most significant changes are Faceless assessment, CAROTAR rules, E Office, WOOWR etc.

Since too many of the new initiatives were introduced within a short time frame, the entire process of handling of Exim cargo has become a challenge and delays have become inevitable.

We as FFFAI, a national organisation, representing cross border trade and logistics have pursued concerns arising out of the new measures with CBIC and have had a virtual meeting with Member Customs on the 9th Oct 2020 and 23rd October, 2020 which will be followed with few more.

We have made various representation which highlights the problem faced at ground level for handling of import/ export consignment.

There are media reports of problems faced by Trade & Industry recently specifically drawing reference to Faceless Assessment mode and CORATAR 2020. We feel the present situation needs intervention of National industry body like yours to strengthen our pursuit as our efforts are to make your members business activities more efficient. We request you to approach and appeal to CBIC and the Ministry from your side of the difficulties faced by your members.

We wish to add that our Members in no way have / are contributing to the delays and are in fact endeavoring their best to support the Exim industry. Hence any delay, financial liability or other consequences arising out of the present situation cannot be attributed to us.

We are confident with your support and our effort we will be able to jointly pursue with CBIC for early redressal and remedial action.

Thanks & Regards,

A.V. Vijayakumar
