Dates	:	27-29 March, 2023 (Monday - Wednesday)
Venue	:	Bombay Exhibition Center (NESCO) Mumbai
	:	Hotel Westin Goregaon (Inauguration & Networking)

ABOUT LOGIX INDIA 2023:

LOGIX INDIA, the 3 Day Mega International Buyer Seller Meet is an initiative focused at improving Cost effectiveness and operational efficiencies and to create an effective Trade logistic system. The third edition of the show was held in Dubai, UAE and witnessed over 3000 B2B meetings.

4th Logix India 2023 shall bring together people, processes, and technology together to create efficiencies in global supply chain logistics. India’s logistics sector is highly defragmented and the aim is to reduce the logistics cost from the present 14% of GDP to less than 10%.

Indian Government plans to spend USD 1.5 trillion in improving infrastructure and most of the investments will take place in improving airports, ports, roads and rail connectivity. Sizeable investments will also be made in AI, IoT and Big Data for transformation of the supply chain and logistics industry. Global Logistics market size is estimated as US\$4.3 trillion. India has continued to emphasize logistics among its high-priority economic reforms to reduce barriers to trading good and services.

Further, to boost the ease of doing business and enhance the livability quotient, Hon’ble Prime Minister launched the National Logistics Policy (NLP). The policy aims to lower the cost of logistics from the existing 13-14% and lead it to par with other developed countries. This will increase the competitiveness of Indian products in both the Indian home market and the international market. The backbone of India's international trade is logistics, which aids in the diversification of not only the country's exports but also of products manufactured in the countries. Hence, the 4th edition of LOGIX INDIA comes at the most opportune time and will further complement the NLP to its beneficiaries.

The show will host over 100 International delegates from over 20 countries and around 150+ Indian Logistics, Warehousing & Shipping Companies. The show is aimed at exploring investment opportunities in infrastructure development, warehouse consolidation, technology integration, IT enablement & skilling of manpower.
